

Health insurance companies will continue to increase your patients premiums far greater than the rate of inflation. It is expected more patients will dump their cover.

WHAT HAVE YOU GOT TO OFFER THESE PATIENTS?

INTRODUCE YOUR OWN PRACTICE DENTAL MEMBERSHIP

To find out how to implement your very own dental membership please call us on
1300 367 340

Currently, half of the population do not have dental insurance, and many of your existing health insured patients are looking for better value alternatives. Now is the time to take action and have something to offer your patients as an alternative to health insurance. Let us help you launch your own dental membership for your patients to join.

Patients that join your dental membership will come back twice a year to get their exams and hygiene as there is nothing to pay on the day!

Benefits to the Patient

- Your dental members get 2 dental exams and 2 dental hygiene appointments each year as part of their membership
- Plus they get 10% discount off all other dental treatments as a gesture of goodwill

Benefits to the Practice

- You receive the membership fees each month instead of the health insurance
- You can easily promote regular dental care as patients will come in twice a year
- Patients cancel less often and your books fill up with dental members

RESOLVE

DENTAL CARE MEMBERSHIP

Sharon Robertson, Director

I was very passionate about bringing Dental Membership into Australia after seeing how successful it was in private practices in the UK. I saw first hand how to create a win/win situation that benefited the dental practice and the patient. Having a tool to retain patients within the practice, whilst making dentistry more affordable to the public was a dream of mine and I am so proud we are able to facilitate this for dental practices here in Australia.

SO HOW DO YOU DO IT?

It is so easy to introduce your own dental membership, we have brought the exact same model from the UK and it is ready for you to offer to your patients... just call us on 1300 367 340 or head to our website and fill out the simple agreement/application form to start.

You pay a one off fee of \$2000+gst and for this you will receive 1000 leaflets, 1000 direct debit forms, 1000 plastic membership cards and 3 waiting room posters... all practice branded with your logo.

When everything is ready we organise a Skype training session for all your staff to learn about your new membership and how to invite your patients to join.

Once a patient completes a direct debit agreement to join your membership, we will collect their monthly payments on your behalf. We then pay the funds, less our fee, directly into your bank account each month, leaving you free to do what you do best... dentistry.
