## Chiropractic Care

---

### **"Chiropractic Works - Back Pain Be Gone!"**

During the summer, I developed very sharp and constant back pain. My entire back felt like a giant knot, the muscles all over were sore and hard, so much so, that I stopped working. Despite this, my back still was not improving. I was also taking some anti-inflammatories that were not helping much. I had the wonderful luck of running into Dr. Maguire at an Expo, where he examined me and told me my back was off and that he could help me. I started attending and after a few sessions, I started noticing that the tight muscles in my back were starting to relax. I slowly started forgetting about my back pain. I have now completed the intensive treatment phase, and am seeing Dr. Maguire once weekly, which is enough to keep my back pain away!
