

Wonderful Adjustments

“With his education, knowledge and experience, he was able to provide easy-to-understand explanations of the issues, and the treatment involved.”

My life changed in November 2006. This is when I finally made the decision to take care of my health and seek Dr. Pat's help to make me and my body feel "right". It was a decision I have never regretted, and as a result, I have never felt better!

I gave birth to my son in 2004, and although it was an easy pregnancy and delivery, my lower back never felt the same afterwards. I regularly felt a pinching sensation, and was unable to touch my toes without bending my knees

or slouching to the side to avoid pain. I still can't believe I lived with this for 2 years before getting treatment!

A bout of bronchitis followed, and the incessant coughing caused something to move out of place and resulted in numbness down the back of my right leg.

Enter Dr. Pat!

With his education, knowledge and experience, he was able to provide easy-to-understand explanations of the issues, and the treatment involved. My lower back, health and mood have all drastically improved and I feel great. It's always a pleasure to see Dr. Pat- his charm, easy smile and quick wit have made my appointments more than a delight.

Chiropractic care has most definitely changed my life!
