

## Wonderful Adjustments

*“The magic you (Dr. Maguire) did re-aligning my back and hips, allowing me to not only sit again, but to be able to lead a 2 month canoe trip only 6 months after my accident!”*

I wanted to send you a HUGE THANK YOU (which really doesn't seem like even nearly enough) for the gift of your patience (the time you took to really explain what was going on in my body), your touch (yes, although sometimes painful, the magic you did re-aligning my back and hips, allowing me to not only sit again, but to be able to lead a 2 month canoe trip only 6 months after my accident!) and of course, the gift of your contagious smile, humor and energy!

All of this came back to me because- well, I was in another accident (I have vowed not to be a full time driver again...I am sure the next accident may hurt someone else...) and the whiplash re-aggravated my lower back so I was on the look for another chiropractor- moving back to Calgary- even for you- really wasn't an option. I found a chiropractor, and he is great, and has got me back into working order, but just lacked some of your magic!

-Jenelle P.
