Recent changes have been made concerning New York State Health Laws which provide patients with a Right To Privacy Act. Due to these changes, we are in compliance as long as you understand our Office Policies and Procedures.

- We have patients openly sign in daily to know who has visited our office and if the insurance company wants proof, we have your signature on that specific sign-in sheet.
- The adjustment area is an open room where individuals and families receive their adjustment.
- Examination room is private where we perform confidential examinations, consultations and, at patient's request, may get adjusted in that room.
- 95% of all patients that visit our office come as referrals of current patients. As a thank you, we like to acknowledge those patients on a board that states "Thank you for referring _____" or "Welcome to our Office".
- Any requests for information from attorneys or doctors concerning your health care for a number of visits, we will not send this information without having a signed consent.
- We believe that regular care is important to your general health. We will periodically remind you of scheduled appointments and/or inform you that it is time for an appointment. We will either call and/or send out a reminder unless you state otherwise.

Your healing experience is one of trust between you and me. I look at your health and your health concerns in the highest regard. Your personal privacy will never be violated.

If you agree to how we practice in this office, please sign and date this form below and we will keep it in our file for authorities, if requested.
