YOUR HEALTH PROFILE

Why This Form Is Important

As a full spectrum Chiropractic office, we focus on your ability to be healthy. Our goals are to address the issues that brought you to this office and offer you the opportunity of improved health potential and wellness services in the future. On a daily basis we experience physical, chemical and emotional stresses that can accumulate and result in serious loss of health potential. Most times the effects are gradual: not even felt until they become serious. Please answer every question.

The Beginning Years (To Age 17)

Research is showing that most of the health challenges that occur later in life have their origins during the developmental years, some starting at birth. Please answer the following question to the best of your ability.
