

# Our Professional Whitening Services

A 15 minute consultation with our dentist is required prior to your in chair whitening appointment for your health and safety. They will check the health of your gums and your suitability for whitening.

### *Had a clean in the last 2 months?*

This 15 min appt is \$45, which is fully credited to the cost of your in chair whitening if you are a good candidate for whitening.

### *No clean in the last 2 months?*

To ensure that the whitening agents work at their optimum, you must have clean teeth. A 30 - 40 min appt is required to remove the plaque and tartar prior to carrying out whitening. We offer this at a package price of \$175, which includes full check up, clean, fluoride treatment and xrays if needed. If you have private health extras, there will be no out of pocket on this appt (ie we do not charge any gap). This is additional to the cost of the whitening (ie no credit applied as this is a discounted offer already).

### *Who can Zoom?*

Anyone 18 or above can be assessed for Zoom!. The dentist will check your gums as well as any visible fillings or crowns (that will NOT change colour). Also some people cant have Zoom! (ie if breast feeding or pregnant).

### *Which lamps do you have?*

The latest LED lamps from Zoom! ensure the best results, and least sensitivity.
