

# *New FDA Cleared Pain Relief Device Offers Relief to Thousands Suffering from Pain and Fatigue*

**No Drugs - No Surgery - No Down Time**

Point Stimulation Therapy is a highly effective, minimally invasive, and has virtually no side effects.. This breakthrough treatment may be the answer you have been looking for if you are suffering from the following list of symptoms.

1. Headaches (various types)
2. Neckaches (with and without initially reduced range of motion)
3. Backaches (origin from muscles, discs, facets, ligaments, nerve root compression)
4. Fibromyalgia
5. CPRS/RSD (sympathetically maintained pain syndromes)
6. Irritable bowel syndrome (IBS)
7. Musculoskeletal pain
8. Tendinitis (including the temporal tendon)
9. Arthritic joint pain (shoulder, hip, neck, knee)
10. TMJ/Facial pain
11. Tinnitus
12. Balance disturbances
13. Dermatitis (rashes, redness, facial skin lesions)
14. Anxiety
15. Depression
16. Attention deficit
17. Chronic Fatigue
18. Insomnia
19. Reduction of post surgical pain, edema, and healing time)
20. Significant reduction of narcotic and non narcotic pain medicine intake

## **How it works!**

Point Stimulation Therapy is based on Cranial Electrotherapy Stimulation (CES)  
CES stimulates the release of neurochemicals called endorphins - the body's natural pain relief opiates.

**Covered by most insurance, including Medicare**
