

ARE YOU READY TO START 2018 ON A JOURNEY TO A LIFE THAT'S CLEARER, BRIGHTER, AND LIGHTER?

Are you aware that your body naturally produces ammonia and carbon dioxide? When overloaded, the body becomes inefficient, and toxins can build up. The 21 Day purification program cleanses by removing naturally occurring toxins.

The liver, lymphatic system, kidneys, lungs, intestines, blood and skin filter, expel, or metabolize these toxins. Good nutrition helps support these organs so they can decrease your toxic load. Environmental toxins and naturally produced toxins in your body can contribute to:

- A stuffy feeling in the head
- Fatigue or difficulty sleeping
- Indigestion and other temporary gastrointestinal upset
- Food cravings and weight gain
- Reduced mental clarity
- Low libido
