Sinus Health

The cause for the Chronic Sinus drainage and Ear problems are most often identified with delayed onset allergy testing.

The Chronic Sinus drainage is from inflammatory particles in the blood stream irritating the mucus glands.

Reducing Allergy Burden will help the Chronic Sinus Inflammation

We can reduce the overall allergy load by doing specialized delayed onset allergy testing.

We use the most accurate and thorough laboratory available for this type of testing.
www.ELISA/ACT.com Lab.

Testing 406 Foods, Chemicals, Preservatives, Molds, and Toxic Metals.
