FOREVER LASTING SMILES

**Facial
Aesthetics**

Cosmetic Treatments

Cosmetic injectables are not only used to eliminate fine lines and creases in the face, but also to relax dynamic wrinkles caused by repetitive muscle movements—a by-product of getting older. These include, but are not limited to frown lines, forehead lines, and ‘crows feet’.

Dermal Fillers are a non-surgical method for facial rejuvenation used to volumise areas and deep lines to minimize their appearance.

Anti-wrinkle Treatments

FROWN LINES— Vertical creases between the eyebrows
From \$165

FOREHEAD LINES— Parallel horizontal creases on the forehead
From \$165

CROWS FEET—Lines radiating from the outer corner of the eyes
From \$80

BUNNY LINES— Fine lines that appear when the nose is scrunch up the nose
From \$80

VERTICAL LIP LINES—Small wrinkles that form just above the upper lip
Price upon consultation

GUMMY SMILE— Displaying too much upper gum when smiling
From \$45

DROOPED CORNERS OF MOUTH— Failure of certain muscles to relax around the lips-
Price upon consultation

MENTAL CREASE— Horizontal groove between the chin and area below the lips
Price upon consultation

BRUXISM (Teeth Grinding)

Anti-wrinkle injections are becoming a first line adjunct treatment for bruxism. The agent is injected into the musculature around the joint (masseter and temporalis) which effectively weakens the muscle and thus reducing the pressure around the joint. Note that results can last from 3-6months.

From \$330

Dermal Fillers

LIPS —As we age, our lips can lose their volume and appear thinner, for some they genetically have smaller or asymmetrical lips.
from \$475

MARIONETTE LINES— The lines that run down from the corners of the mouth that can make people look unhappy or mad.
from \$475

ACCORDION LINES —These are curved vertical lines that form outside the corners of your mouth, caused by smiling or laughing.
from \$475

CHIN LINES

These lines typically can either show as horizontal (across the top of the chin) or vertical wrinkles (at the outside edge of the chin).
from \$475
