<b>Fees are due when services are rendered.</b> Interest calculated at 2.0% per month.	

Unfortunately, we cannot extend credit to our patients. There are several options available to pay your account. You may choose to pay your account at the start of each week or at the end of each visit. Or, you may prefer to establish an advance payment at the beginning of your care to save money and time at the front desk. Cash, cheque, Interact, and Visa are accepted. It is important to keep your appointments because each adjustment builds on the one you had the time before. However, if it is necessary for you to reschedule an appointment, please make it up within seven days.

Please notify us if you are unable to make your scheduled appointment time to enable us to schedule someone else in your reserved time, and to reschedule your missed appointment.

The initial adjustment releases a tremendous amount of nerve pressure and tension; therefore, you may experience some different sensations. If you are not sure of what you are feeling when you get home, please call the office.

Dr. D.H. Mizel: (905) 934-7776

## TREATMENT PROCEDURES

When you arrive, sign in. You will be given your travel card to bring to the appropriate room. Put your travel card in the pocket of the door. Place a sheet of face paper on the table and lay face down, or in any comfortable position. Rest and relax while waiting for the doctor. When your treatment is finished, please throw your face paper away and bring your travel card back to the front desk. Please confirm your next appointment before you leave the Clinic.

## SPINAL WORKSHOPS

Part of your treatment here includes a prescribed exercise program you can do at home. Spinal workshops are given on a regular basis. It is essential that you attend at least one. Bring your spouse or a partner. There is no extra charge for these workshops.

## YOUR TREATMENT APPOINTMENTS

The doctor has set up a specific course of treatment for you. A certain number of treatments in a set amount of time is required for us to get the results we mutually desire. Thus, if you need to change the time of one of your appointments, plan to come at another time the same day. If the same day is not possible, be sure to make up your missed appointment within one week. If you need to miss an appointment, please notify us two hours prior to the appointment time so we may schedule other patients.

## RE-EXAMINATIONS AND PATIENT STATUS UPDATES

The progress you make in your course of treatment here at the Clinic is measured in two ways:

1. How you feel you are doing.
2. The findings from your exams and re-exams.

The Doctor manages your case from the latter. Your progress is measured and your treatment course is determined by analysis of these findings.

## DISCONTINUING CARE

We ask that you do not dismiss yourself from treatment. If you plan to discontinue care, please notify us of your intentions. You will be asked to return to the Clinic for a short final exam to update and close your file if necessary.

## REFERRALS

We welcome your referrals. Any person referred to this clinic by you will receive priority status.
