

COVID-19 (Corona Virus) Notice

Dear Valued ChiroCenter Client,

At ChiroCenter we make it our mission to assist others in proactively caring for their bodies and minds. As the COVID-19 pandemic continues to evolve, we wish to inform our patients of our plan to remain proactive. We are taking numerous precautionary measures to ensure the integrity of our care while minimizing risk to our patients and public health.

Per CDC recommendations (<https://www.cdc.gov/coronavirus/2019-ncov/index.html>), we're implementing the following practices and policies and will remain in operation as long as remains appropriate in accordance with the Minnesota Department of Health.

Our guidelines for who should delay care or continue to receive care presently.

- If you or a family member is sick, please stay home (symptoms range with this virus, and better stay safe than sorry)
- If you're an at-risk individual stay home (over 65, immunodeficient, pregnant, etc.)
- If you're on a reduced frequency maintenance care plan, consider delaying your next appointment. We're happy to reschedule.

Procedures we ask for your help in maintaining safety of our clinic

- Hand washing and sanitizing procedures- We ask all patients to wash/sanitize their hands upon arrival
- Please notify us if you develop respiratory symptoms or fever above 100.4 F
- We are adjusting appointment times to reflect the 10-person standard of social distancing
- Please remain in contact with our staff regarding your care (if cancels are necessary give us a call)

Please note that at this time our utmost concern remains balancing the healthcare needs of our patients and safety for all. We thank you for trusting ChiroCenter with your natural healthcare needs and look forward to the light that awaits us when the dust settles.

If you have any questions and/or concerns, please contact us - www.chirocentermn.com
